

Students in Action- Leading our Community

The Parent Lighthouse Team's mission this year is to honor our CHES students that are leading organizations or clubs outside of our building. These student leaders need to be recognized here at school too. So if your student is demonstrating leadership in the following areas listed below fill out the form attached:

1. **Extracurricular Activities:** activities may include school, church, community, or civic functions or a personal talent/hobby in the community.
2. **Service (voluntary):** activities, events, tutoring...
3. **Honor/awards:** award received from outside organizations

Once a month these students will be recognized in the morning meeting. By leading in these three areas also prepares the students for future jobs, colleges, careers, and development of a well rounded Daviess County citizen.

Feel free to send in newspaper article or a picture of your leader in action with the attached form!
